

Second Grade Summer Activities

Dear First Grade Parents,

Congratulations! You are now the parents of a second grader! Your child has learned many new concepts in first grade and we feel they are well prepared for second grade. Summer is a time for children to relax and recharge. However, we also want to keep their brains sharp. Attached you will find a variety of activities to help review and practice various skills, and to prepare your child for the upcoming school year. Students should complete the packet as independently as possible. We recommend that parents help their children pace themselves throughout the summer in regards to completing the summer packet.

Over the summer we encourage your child to read on a regular basis. Many public libraries offer summer reading programs that include incentives. Children benefit from daily independent reading, as well as hearing others read to them. It is equally important to practice math skills over the summer. One way is to use flash cards to practice addition and subtraction facts to 20.

Students should return their completed packets to their second grade teachers during the first week of school.

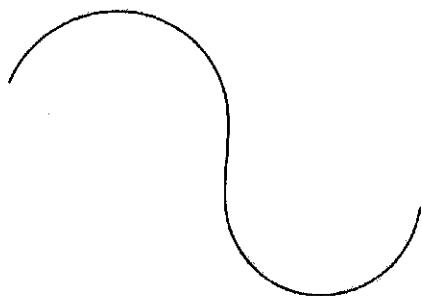

Have a safe and relaxing summer!

Mrs. Lee and Mrs. Ward

In the box, draw a picture of your favorite part.

The American Flag

Read.

Red, White, and Blue

The most well-known symbol of the United States is its flag. Some people call the United States flag the Stars and Stripes. Other people call it Old Glory or the Red, White, and Blue.

The flag has always been red, white, and blue. The first flag was made more than 200 years ago. It had 13 stars and 13 stripes. Today our flag has 13 stripes and 50 stars. Each stripe stands for one of the first colonies in America. Each star stands for one of the states. The flag has its own holiday. Flag Day is on June 14. On Flag Day, people hang flags on their homes and stores. Some places have parades to honor the flag.

Write.

1. Write two names people have for the United States flag. _____

2. What color is the flag? _____

3. How many stars are on the flag? _____ What do they stand for? _____

4. Why do people hang flags on their homes on Flag Day?

5. Would you like to be in a Flag Day parade? Why or why not?

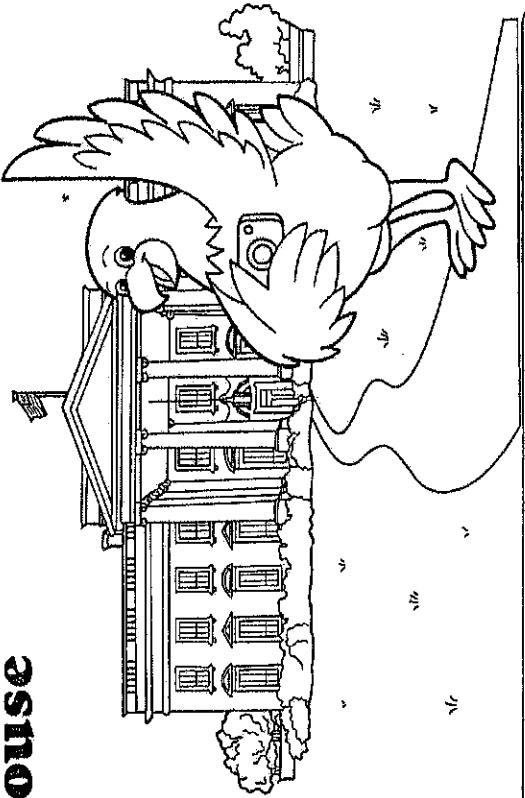

Bonus Box: On the back of this sheet, write a sentence that tells where you might see a United States flag. Draw a picture that matches your sentence.

The White House

Read.

A Home for the President

When the president watches movies or goes bowling, he doesn't have to leave home! His home has a swimming pool too. There are 132 rooms in his Washington, DC, home. A lot of the rooms are used for work. There are rooms for eating, sleeping, and watching TV too. Lots of people visit the White House each year. If you go, you will see about five rooms on the ground floor. The rest of the rooms are not for all to see. Do you think you would like to live in the White House?

Write to answer each question.

1. Who lives in the White House? _____
2. How many rooms are in the White House? _____
3. Where is the White House? _____
4. About how many rooms would you see if you visited the White House? _____
5. Reread the passage. Answer the question in the passage. _____ Explain your answer.

Bonus: If the president invited you to the White House, what would you like to see first? Why? Write to explain your answer.

Bonus: Use each number you did not color in an addition sentence.

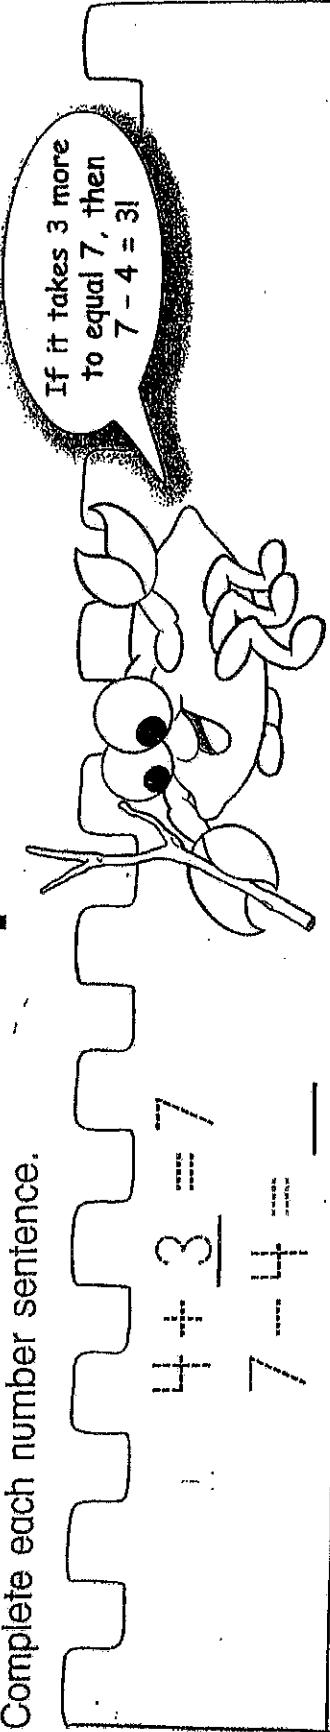

Name _____

Complete each number sentence.

$$\begin{array}{r} 4 + 3 = 7 \\ 7 - 4 = \underline{\quad} \end{array}$$

Sandy's Castle

Using addition to subtract

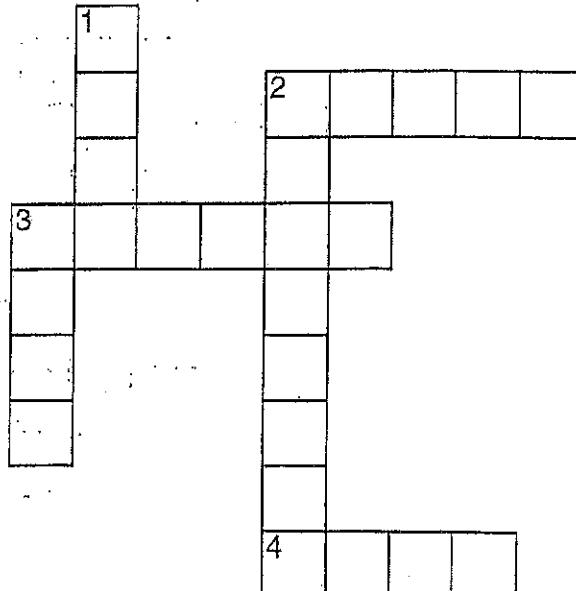

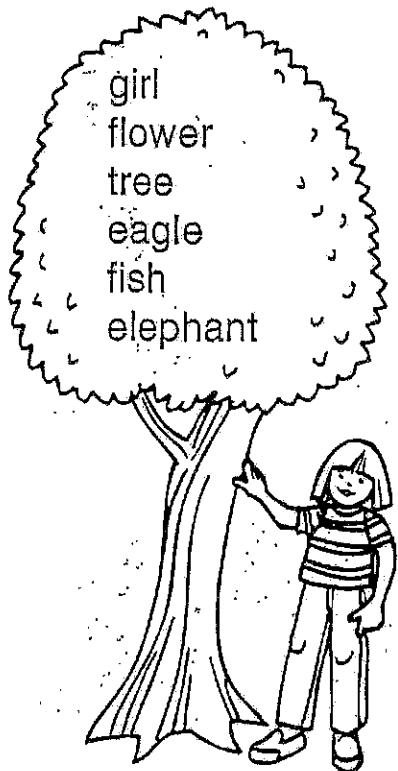

A $2 + \underline{\quad} = 9$ $9 - 2 = \underline{\quad}$	B $4 + \underline{\quad} = 11$ $11 - 4 = \underline{\quad}$	C $5 + \underline{\quad} = 7$ $7 - 5 = \underline{\quad}$	D $4 + \underline{\quad} = 13$ $13 - 4 = \underline{\quad}$
E $6 + \underline{\quad} = 10$ $10 - 6 = \underline{\quad}$	F $7 + \underline{\quad} = 8$ $8 - 7 = \underline{\quad}$	G $4 + \underline{\quad} = 14$ $14 - 4 = \underline{\quad}$	H $5 + \underline{\quad} = 12$ $12 - 5 = \underline{\quad}$
I $6 + \underline{\quad} = 11$ $11 - 6 = \underline{\quad}$	J $3 + \underline{\quad} = 15$ $15 - 3 = \underline{\quad}$	K $8 + \underline{\quad} = 16$ $16 - 8 = \underline{\quad}$	L $6 + \underline{\quad} = 9$ $9 - 6 = \underline{\quad}$
